

Taha Suliman

Nationality: Sudanese | Location: Cairo, Egypt | Portfolio Website: <https://taha-suliman.github.io/tahaSuliman.com/>

SUMMARY

Motivated Computer Science & Engineering student and aspiring Network Technician with a strong academic background and hands-on technical training in Network Technology through Cisco CCNA and Microsoft MCSA curricula. Possess solid knowledge of network infrastructure, structured cabling, network device installation, Windows Server administration, and essential networking services.

Capable of installing and troubleshooting network infrastructure, supporting Light Current systems including IP CCTV, Intercom, and Access Control systems, while maintaining high standards of safety and workmanship. A fast learner with excellent teamwork, communication, and problem-solving skills, seeking an opportunity to contribute to professional network and low-current projects while continuously developing technical expertise.

EDUCATION

Bachelor of Computer Science & Engineering, Currently pursuing a Bachelor's degree with coursework including:, Computer Science, Programming, Database Systems, Data Structures & Algorithms, Software Engineering, Operating Systems

6 October Human Development Centers

Network Technology Diploma, Completed successfully:, First Semester, Second Semester, Currently preparing for:, Third Semester, Cisco Certified Network Associate (CCNA) covered topics include:, Networking Fundamentals, OSI & TCP/IP Models, IPv4 & IPv6, IP Addressing & Subnetting, Routing & Switching, VLANs, Wireless Networking Fundamentals, Network Security Fundamentals, Network Troubleshooting, Microsoft Certified Solutions Associate (MCSA) covered topics include:, Windows Server Administration, Active Directory, Domain Services, DNS, DHCP, Group Policy, User & Permission Management, Network Services Administration

EXPERIENCE

Vice President & Technical Developer

01 Developers Team

Volunteer Hub Organization (VHO)

- Participated in technical projects.
- Led volunteer technical teams.
- Assisted in training new members.
- Collaborated with multidisciplinary teams.
- Coordinated project activities.
- Worked effectively under tight deadlines.
- Developed leadership and teamwork skills.

TECHNICAL SKILLS

UTP/STP Cabling Installation

RJ45 Termination & Crimping

Cable Testing

Structured Cabling Installation

Patch Panel Installation

Face Plate Installation

Network Rack Organization

Installation and basic configuration of: Routers, Switches, Wireless Access Points

Configuration of: IP Addressing, DHCP, DNS

Good understanding of: Routing, Switching, VLAN Technologies

IP CCTV Installation

CCTV Cabling

Intercom Systems Installation

Access Control Systems

Assistance in Low Current Infrastructure Projects

Reading Technical Drawings

Cable Route Planning

Network Testing Tools

On-site Troubleshooting

Safety Compliance During Installation

Strong Teamwork

Excellent Communication Skills

Fast Learner

Problem Solving

Attention to Detail

Time Management

Reliability & Integrity

Ability to Work in Field Environments

Ability to Work Under Pressure

ADDITIONAL TECHNICAL BACKGROUND

Besides networking, I possess a solid foundation in Computer Science and Software Development, enabling me to better understand integrated IT systems, including: - Programming Fundamentals - Database Systems - Web Development - Operating Systems - Computer Hardware & Software - General IT Support

LANGUAGES

- Arabic: Native - English: Good command of technical reading, writing, and communication.

CAREER OBJECTIVE

Seeking a position as a Light Current & Network Installation Assistant, where I can apply my academic knowledge and practical networking skills in real-world projects. I aim to contribute effectively to network infrastructure and low-current installations while continuously expanding my technical expertise and advancing my professional career.
